AFFAIRS OF THE RAILWAYS.

Personal, Local and General Notes. Traffic Manager Parker, of the Lake Erie & Western, who has been off on a few days' pleasure trip, will return this morning. George Bender, superintendent of the Chicago division of the Big Four, is expected home from his New England trip to-day. Indianapolis Division, No. 103, Order of Railway Conductors, is to have an impor-

tant meeting at 9 A. M., Sunday morning, to which all members are urgently requested The Toledo, St. Louis & Kansas City road is becoming a valuable line for the Ameri-

can Express Company, which, for years, operated over it, when it was a narrowguage affair, at a loss. The local ticket scalpers are much en-couraged over the outlook for their busi-ness. The putting on of round-trip tickets

by the fighting lines is a move of which the scalpers will take advantage. The Cleveland & Canton management is arranging to do through business in connec-tion with the Baltimore & Olfio road, with which the C. & C. connects, through its Coshocton branch, at Zanesville, O.

The Lake Erie & Western will make Tipton much more of an important division point than at first contemplated. A yard having some five miles of side-track will be constructed, and an engine-house with ten

Excursions to the Soldiers' Home, Day-ton, O., will begin this month. The Lake Erie & Western announces an excursion off of their line Sept. 9, from Indianapolis. It will be run over the Cincinnati, Hamilton & Dayton.

As a result of the talk that the Big Four syndicate would take in the Ohio, Indiana & Western, the first mortgage bonds have advanced 18 points. In July they sold at 61 cents on the dollar, and yesterday they were sold at 79 cents on the dollar.

It is stated that friendly relations are to be re-established again between the Chi-cago & Alton and the Atchison, Topeka & Santa Fe. The new management commences wisely in its efforts to re-establish a goodly feeling between itself and com-

Edgar Van Etten, late with the Erie road, has been appointed division superintendent on the Rome, Watertown & Ogdensburg road. It is understood that E.A. Vanhone, one of the division superintendents, will succeed H. A. Britton, deceased, as general superintendent.

The railroad companies have been experiencing a good deal of trouble the last two weeks with hot boxes. Three of the fast trains coming in yesterday were obliged to cut out one of their through cars here for this reason. The hot and dry weather is given as the cause.

The lines owned and controlled by the Pennsylvania Railroad Company east and west of Pittsburg show an increase in net earnings in July, 1889, over those of the corresponding month in 1888, of \$203,019. The increase the first seven months of this year was \$1,066,574. The net earnings for July were the largest of any month in many

The American Midland is again in financial trouble. The employes are not getting their pay, it is stated, and, in turn, their grocers and butchers are experiencing the same trouble. The officials set times to pay the men, but fail in doing so until the situation has become serious. The employes on Thursday threatened, it is stated, to hang the president of the road in effigy, but were persuaded not to do so by the more conservative among their number.

On Oct. 1 the Toledo, St. Louis & Kansas City road will put on through trains at night, between Toledo and St. Louis. Going west, the train will leave Toledo at 4:30 P. M., reach St. Louis at 7:30 A. M. next morning; going east, the train will leave St. Louis at 7 P. M., and reach Toledo at 9:30 A. M. next morning. It is not expected that in the beginning they will be paying trains, but all roads are obliged to do business at a loss in the introduction of through service.

The persons who propose to build the new road between Logansport and Indianapolis have just gone over the route in a carriage. Coming south it takes what is known as the Colonel Yeoman line, and going north an older projected line, five miles west of the Yeoman line. Either line they look upon as being feasible. The route selected will likely be the one which offers the most subsidies. The persons interested show a determination to build between the points

An official of the Big Four says that the removal of the transportation offices of the Big Four to Indianapolis within the next six months is highly probable. General Superintendent Blee says that such a change would be very satisfactory to him, and would certainly be more convenient than the present arrangement. With the Big Four securing control of the Ohio, Indiana & Western, rooms in the Ingalls Block suitable for the transportation offices and sufficient in number, could be fur-

The Pennsylvania Company will within a few days put on a new train over the C., St. L. & P. and the J., M. & I. between Chicago and Louisville which will make the run in eight and a half hours between the two cities. The train will probably leave Chicago at 10:30 P. M. and reach Louisville at 7 A. M., and the time of the present trains will be shortened somewhat. The fastest time now made between the two points is eleven hours. The distance over the Pennsylvania lines is 303 miles, over the Louisville, New Albany and Chicago 323 miles.

The American Wire-nail Company, of Covington, Ky., has filed a complaint with the Interstate-commerce Commission against the Queen & Crescent fast-freight line. The complainant alleges that his company was charged 40 cents per hundred weight for transporting wire nails packed in kegs from Cincinnati to Chattanooga. Tenn., while only 15 cents per hundred was charged for transporting iron nails from Cincinnati to Chattanooga, which difference, complainant says, is quite a burdensome discrimination, for the reason of the precise similarity in value and character of the nails.

E. F. Osborn, secretary of the C., C., C. St. L. Railroad Company, and John Egan, general ticket agent, were in the city yesterday. Mr. Osborn is, as well, vice-president of the Grand Central Union Depot Company, at Cincinnati. His object in visiting the city yesterday was to look into the workings of the Jenney electric light. At Cincinnati it is proposed to erect the largest electric arc-light plant in the country, for lighting not only the Grand Central Station but the Chesapeake & Ohio bridge and the Big Four yards at Cincinnati. At least 200 are lights will be re-

The Pennsylvania lines will to-morrow make another cut in rates in the territory in which they come in competition with the Big Four and the Monon. It is evidently the Monon, however, which the Pennsylvania is after. The round-trip rate be-tween Chicago and Jeffersonville, starting from either point, is but \$7, and the same rate is made between Indianapolis and Chieago, round trip, and further reductions may be looked for before next week closes if some one of the lines affected does not cry enough. The Pennsylvania people claim to have evidence that they are now meeting only rates of their chief competitor between Louisville and Chicago. The fight now has a more serious look than at any time since it was inaugurated.

In commenting on the rumor that the Lake Erie & Western management would remove its shops from Peru to Tipton, Ind., the Peru Republican says: "When the city of Peru deeded the ground for the I., P. & C. shops, now owned by the L. E. & W. railroad, it was shrewd enough to attach a string to the title. Whenever the shops cease to be used as the main shops of the railroad running from Indianapolis to Michigan City, the title to the land, with all the buildings, tracks, etc., built thereon reverts to the city of Peru. The property is worth, perhaps, a hundred thousand dollars. This is a good guarantee that the Peru shops will not be removed to Tipton. The town of Tipton will be wise if it secures itself as well in its donation to the L. E. & W. for a round-house and shops for

the east and west line of the same road." Within the last six months the Fort Wayne, Cincinnati & Louisville Railroad Company has expended a considerable sum of money in improving the Whitewater Valley road. Now the rumor comes that the two roads are to be consolidated. The stock of both roads has been quite active of late, both in the Boston and New York markets. The Fort Wayne, Cincinnati & Louisville road extends from Fort Wayne, Ind., to Connersville, Ind., a distance of 104 miles, and in addition has a branch twentyfour miles long running between a point on the main line and Rushville. Ind. The

\$100,000 of notes due in 1803. The road had \$100,000 of notes due in 1893. The road had a surplus of \$66,000 in 1888 over interest charges, etc. Elijah Smith, of this city, is the president. Mr. Smith is also president of the Whitewater railroad, which operates between Valley, O., and Cambridge City, Ind., a distance of sixty-tive miles. This road was formerly the Whitewater Valley railroad, which was sold at foreclosure in 1878, and reorganized under the present title. It has \$1,300,000 of stock, and no bonds, and has made a small deficit in no bonds, and has made a small deficit in recent years. It will be noticed that there are no bonds on either road. It is understood to be the intention of the consolidators to exchange both stocks for the stock of the new company, and also to make an issue of first mortgage bonds covering all the property of both roads.

A FACE AT THE WINDOW.

The People of Elm Street Disturbed by an Apparition and Mysterious Lights.

For some time past rumors have been current in the vicinity of Elm street concerning people who, wending their way homeward late at night, have been frightened out of their wits by an unnatural illusion in a certain house in the neighborhood. These stories are so frequent, their authenticity being vouched for by so many respectable persons, that the police authorities are investigating the affair. The officers, when approached upon the matter, are naturally reticent, but this silence only lends some apparent truth to the many tales told in connection with the mystery.

James Snelgrove, a laboring man who resides near the house referred to, and who is one of the parties who complained to the police, gave a reporter the following account of the spectacle which he had witnessed about a week ago: "I was slowly walking past the house on my way home, when, happening to look towards the place, I was astonished to see in one of the upstairs windows a pale, luminous light, more like an electric light than that of gas or lamp, and had a peculiar whitish tinge. Knowing that no one lived in the house, I stopped and watched it. After a few minutes the light grew less and less; all at once I heard a scream, and saw a child's face through the window-glass. is one of the parties who complained to the a child's face through the window-glass, pale and pleading. The strong light cast a perfect halo on the golden hair, which crowned features of singular beauty. It could not have been the face of a living child. I averted my head for a moment, horrified, and when I looked again the room

was dark and the face had disappeared." Thomas Connelly, another man living on Elm street, and known to be sober and industrious, also had a similar experience, and told the reporter that he had kept quiet at the time simply for the reason that he was afraid people would laugh at him. The stories, however, have now become so general and so many people complained about being frightened that he considered it his duty to add his testimony to that of others. Whether the sequel to this mysterions affair will prove that some this mysterious affair will prove that some clever hoax is being played upon the peo-ple of the neighborhood or that there is some ground for the stories set in circula-tion is a matter for the police authorities to discover.

ASZMAN IN JAIL.

The Murderer of Bertha Elff Expresses Regret at the Crime His Jealousy Caused.

Yesterday morning Edward Aszman, the murderer of Bertha Elft was taken from the City Hospital to the jail in an ambulance by patrolman Davidson, accompanied by Coroner Wagner. To the coroner Aszman made a long and incoherent statement, dur-ing the recital of which he had to be given water and allowed to rest. He is still in a very weak condition and complains of his throat paining him. He attributes the cause of the crime to jealousy aroused through the attentions that a man named Bazlan had been paying to the murdered woman. To a Journal reporter who visited him in his cell, last night, Aszman stated that the murder was entirely unpremeditated, but that he had been drinking heavily. He was irritated at the manner in which the murdered woman had replied to his questions relating to her in-timacy with the man Bazlan. The prisoner now expresses deep regret for the crime. and reiterated again and again the wish that he had died with the woman.

Letter-Carriers Appointed.

Appointments, by Postmaster Wallace of local mail-carriers, under the civil-service rules, occurred yesterday. They were from those who attained the best grade at the recent examination, and are as follows: C. P. Sample, 94; L. A. Newby, 91; Gustave Schenedel, 90; B. A. Loutz, 90. Sample is an old soldier.

Real Estate Transfers.

LOST.

Fort Wayne, Cincinnati & Louisville is the name of the old reorganized Fort Wayne, Muncie & Cincinnati. There are outstanding on the road \$4,000,000 of stock, and I ost—IN FRONT OF 185 EAST NEW YORK account book, with red cover, written in German and English. The finder will be rewarded if returned to the above number, by J. S. SCHNEIDER.

nvestigation has shown that the consumers of Ivory Soap are almost entirely of the most intelligent class of the people; this, with the fact that over twenty millions of cakes of Ivory Soap have been used the past year, confirms what Prof. Silliman, of Yale College, said: "The Ivory Soap is of remarkable purity and superior excellence."

A WORD OF WARNING.

There are many white soaps, each represented to be "just as good as the 'lvory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.
